ID	Private	

Process2: Storage process

Implementation:

We have followed a formats based on our needs in the salon, where the data will be stored in the types mentioned in the table based on the formats.

All employees responsible for this process must undergo training and awareness of the importance of this process, and they must also be trained to periodically update all protocols and take care of the authorized access aspect, as those who do not have characteristics cannot be accessed.

Must implements Firewalls and Intrusion Detection Systems (IDS), to protect our data from the attacks such as External threats such as viruses or suspicious activity or denial-of-service (DoS) attacks, etc...

Integration and compliance with the regulation must also be required.

Make sure to apply periodic backup and recovery when needed.

Data cannot be stored in its original form, its wording must be changed by encryption.

Purpose:

securely and efficiently manage all information related to our salon operations. By implementing robust data storage practices. we aim to safeguard sensitive client details, appointment records, inventory information, sales transactions, and staff data., and to improve efficiency, accessibility, and data security, ultimately enhancing our salon's operations and customer service.

Scope:

The scope of our salon's data storage process involves organizing and securely storing key salon-related data. This includes client details, appointment schedules, inventory information, sales records, and staff information.

Roles &responsibilities:

Store Manager:
Overall responsibility for the efficient and effective operation of the salon's store.
Inventory Assistant:
Assisting with inventory audits and maintaining accurate records
Database Designer:

Implementing the database schema according to best practices and industry standards.

Data store format:

File storage	:Description	access to data through shared file systems
	Schedule work flexibly by quick access of customer data. It helps to meet customer requests in the workplace.	
Object storage	:Description	technology that stores and manages data in a structured format called objects.
	allow users to access the content efficiently from a single, virtual storage repository, and can be used to import existing data stores for analytics, backup, or archive.	

Types of data stores:

Use solid-state drives (SSDs)	store and access client records and appointment schedules, quickly and efficiently.
SQL Databases	client information, appointment schedules, inventory details, sales records, and staff information.
cloud storage	scalable storage resources at lower upfront costs, allowing the salon to scale storage capacity based on demand without significant capital investment.

Data Governance Policy:

Purpose:

The purpose of this policy is to establish a comprehensive framework for managing the salon's operations, safeguarding the interests of the business, its employees, and clients. These policies aim to:

1. Protect the salon, its employees, and clients from various risks and ensure compliance with relevant health and safety regulations.
2. Standardize practices and set clear expectations for both staff and customers, enabling efficient operational management.
3. Mitigate potential risks and liabilities by delineating the rights and responsibilities of the salon and its patrons.
4. Foster stability and continuity, providing a consistent framework for operations even during changes in personnel or management, while also facilitating the onboarding and training of new employees.

Scope:

This Data Governance Policy applies to all data and information created, accessed, stored, used, shared and protected by the Salon. This includes, but is not limited to:

- All customer personal data, including contact information, preferences, and medical records.
- All financial and accounting data related to the salon's operations, revenues, and expenses.
- All operational and administrative data related to employees, suppliers, and services.
- The salon's technical infrastructure, including computer systems, networks, and databases.

This policy applies to all employees, contractors, partners, and clients who handle salon data.

1.Roles and responsibilities:

Data Processor:

data processor is responsible for carrying out the actual processing of the data under the specific instructions of the data controller which include:

- Design, create, and implement IT processes and systems that would enable the data controller to gather personal data.
- Use tools and strategies to gather personal data.
- Store personal data gathered by the data controller.
- Transfer data from the data controller to another organization and vice versa in a secure manner.

Data Controllers:

- Consider the purpose, nature, context, and scope of any data processing activities,
- consider the likelihood of any severe risk to the freedoms and rights of any natural persons,
- implement appropriate organizational and technical measures and security measures that demonstrate that the data processing activities have been performed in accordance with the GDPR,
- review and update these measures where necessary.

Data steward (Manager):

- Establishing goals and strategies for running the store
- Human resources management and financial budgeting
- Ensure standards are met and regulations are complied with

Receptionist:

- Receiving customers and registering their reservations.
- Responding to customer inquiries and dealing with their complaints.
- Assist in organizing store activities.

Beauty artist

- Providing beauty, hair and skin care services.
- Providing advice to customers on products and services.
- Maintain cleanliness and order of the work area.

Responsibilities of the specialist under the title of “beauty technician”:**- Hairdressing artist:**

- Providing hair styling, cutting and dyeing services.
- Providing advice on hair care and the latest hairstyle trends.

- Nail artist:

- Performing nail care services such as manicures and pedicures.
- Advice on nail designs and nail polish application.

- Performing skin care services such as deep cleaning and masks.
- Providing advice on the appropriate routine for skin type.

-Make-up artist:

- Apply make-up for various occasions, including everyday wear, special events, photoshoots, weddings, and other ceremonies.
- Create diverse looks, from natural and subtle to bold and dramatic, based on client requests and current trends.

2.Policies:

1. Policies for the customers

1.1. Appointment Scheduling

- 1.1.1. Customers are encouraged to schedule appointments in advance via our website to ensure availability.
- 1.1.2. Walk-in appointments are accommodated based on availability, but priority is given to scheduled appointments.

1.2. Appointment Confirmation

- 1.2.1. When booking your appointment, you must confirm it by paying part of the amount of the booked service as a deposit in advance.
- 1.2.2. If you book an appointment but don't confirm it by payment within 24 hours, your appointment will be cancelled.

1.3. Appointment Cancellation

- 1.3.1. If you want to cancel your appointment, you must inform us at least 4 hours before your appointment to receive your deposit.
- 1.3.2. Canceling the appointment late will result in your deposit not being refunded.

1.4. Not Showing at Appointment

- 1.4.1. Not showing up to an appointment will result in your deposit not being refunded.

1.5. Arriving Late for Appointment

1.5.1. Being 20 minutes late for your appointment is acceptable and the staff will serve you.

1.5.2. Arriving more than 20 minutes late will result in rescheduling your appointment.

1.6. Service Expectations

1.6.1. If you are not satisfied with the service provided, please inform us during your appointment or within 24 hours.

1.6.2. If we determine there is a need, a free appointment will be scheduled for you.

1.7. Service On Children

1.7.1. All children under the age of 18 must be accompanied by an adult while the service is performed.

1.8. Pricing and Payment

1.8.1. Prices for services are determined based on factors such as hair length and products used.

1.8.2. The rest of the payment can be made on the website or in the salon via Visa, Mada Credit Card, or Cash.

1.9. Health and Safety

1.9.1. Our salon maintains high standards of cleanliness and hygiene to ensure a safe environment for everyone.

1.9.2. Please inform us of any allergies, medical conditions, or recent hair treatments that may affect your service.

2. Policies for the employees

2.1. Dealing with Clients

2.1.1. Avoid making assumptions or judgements about a client's appearance, lifestyle, or background.

2.1.2. If a client expresses dissatisfaction, remain calm and avoid arguing or taking their frustration personally and apologize sincerely for the client's negative experience and acknowledge their concerns, ask probing questions to fully understand the issue and determine the best way to resolve it, offer solutions or alternatives that could make the situation right, such as redoing the service, providing a refund or discount, or offering a complimentary add-on.

2.1.3. Our Salon reserves the right to refuse service to any client who is verbally abusive, disruptive, or engaging in unacceptable behavior towards our staff. Our employees are empowered to politely end the service and ask the client to leave.

2.1.4. If a client becomes verbally or physically aggressive, immediately remove yourself from the situation and notify a manager and the salon reserves the right to ban repeat offenders from returning to the premises.

2.2. Attendance

2.2.1. Official working hours and attendance must be from 10 a.m. to 5 p.m. if this is on the employee's morning shift, while the evening shift is from 5 p.m. to 1 a.m.

2.2.2. Those arriving more than 15 minutes late without prior notice or emergency reason the number of times of lateness will be calculated at the end of each month and an amount will be deducted from the salary.

2.2.3. Employees are expected to arrive 15 minutes prior to their scheduled shift start time.

2.2.4. Employees who fail to Attendance for their scheduled shift without prior notice will be charged a no-Attendance fee.

2.3. Professionalism

2.3.1. Employees are required to adhere to the salon's dress code, which reflects our brand image and maintains a professional appearance .

2.3.2. Use specific colors for each service to make it easier for employees to identify

2.3.3. To maintain a professional environment, personal cell phone use is restricted during work hours. Employees may use their phones during designated breaks or in emergency situations.

2.3.4. All employees are responsible for maintaining the cleanliness and organization of their work areas and common spaces.

2.3.5. Employees are required to maintain good personal hygiene and cleanliness at all times.

2.3.6. All interactions with clients and colleagues must be positive, respectful, and professional.

2.4. Employee Conduct

2.4.1. Employees will receive regular performance reviews with constructive feedback to support their professional development.

2.4.2. Violations of policy will result in verbal warnings, written warnings, suspension, and/or termination depending on the severity.

2.4.3. Repeated offenses or egregious misconduct may lead to immediate dismissal.

2.4.4. Conflict resolution:

- The salon is committed to maintaining a harmonious and professional work environment. In the event of conflicts or disputes among staff members, the following process will be followed:
- Open Communication: Employees are encouraged to first approach the individual they are having an issue with directly, in a calm and respectful manner, to discuss the problem and work towards a resolution.
- Supervisor Mediation: If the employees are unable to resolve the conflict on their own, they should bring the matter to the attention of their immediate supervisor. The supervisor will meet with both parties, listen to their

perspectives, and attempt to facilitate a compromise or mutually agreeable solution.

- HR Intervention: If the supervisor's mediation is unsuccessful, the issue may be escalated to the salon's human resources department. HR will conduct a thorough investigation, gather all relevant information, and determine the appropriate course of action, which could include:
 - Formal counseling sessions with the disputing employees
 - Implementation of a performance improvement plan
 - Temporary reassignment of work duties or schedules
 - Final written warning with the threat of termination
- Disciplinary Action: In cases where the conflict cannot be resolved internally, or if the behavior of one or more employees is deemed unacceptable, the salon reserves the right to take disciplinary action, up to and including termination of employment.
- Appeal Process: Employees who receive disciplinary action as a result of an unresolved conflict have the right to appeal the decision through the salon's formal grievance procedure. This allows them to present their case to a neutral third party for review.

2.5. Health and Safety

2.5.1. Comprehensive training was provided on infection control, first aid and emergency response.

2.5.2. Ensure that all employees are licensed/certified as required for their roles (e.g. estheticians, nail technicians).

2.5.3. Store and dispose of all chemicals, sharps, and soiled linens properly, and keep a good stock of disinfectants and other cleaning products in their designated places.

2.5.4. Proper disposal of spent electronic and electrical devices.

2.5.4. Wearing gloves is mandatory for all employees, except in cases that require direct use of the hand, such as delicate cosmetic services.

2.5.5. All tools used must be sterilized and changed between each client, regardless of the service provided.

2.5.6. Maintaining hand hygiene before and after each service is mandatory for employees.

3. Policies for equipment

3.1. Usage

- 3.1.1. Employees must use the tools for each service only.
- 3.1.2. All tools are cleaned and sterilized regularly after each use.
- 3.1.3. Any damaged or malfunctioning equipment must be reported to the supervisor.
- 3.1.4. The use of any equipment not approved by the salon is not allowed.
- 3.1.5. Inventory of all tools is done for employees, and a responsible person is assigned for the tools in each department.

3.2. Protection

- 3.2.1. Employees must use the tools for each service only.
- 3.2.2. Employees are responsible for the equipment assigned to them and must report any missing or misplaced items.
- 3.2.3. Unauthorized modifications or tampering with salon equipment is strictly prohibited.
- 3.2.4. All equipment and devices must undergo regular maintenance.

4. Policies for Data Controllers and Data Processor:

Types of Data Collected:

- Contact information (name, address, phone, email)
- Payment information (for billing purposes)
- Service preferences and history
- Any medical or allergy information relevant to salon services

Data Collection Methods:

- Directly from customers when they book appointments, fill out intake forms, make purchases, etc.
- Automatically through the salon's booking/point-of-sale system.

4.1. Consent

4.1.1. We must obtain prior consent from clients before processing their personal data, with some exceptions:

- Processing is necessary for the actual interest of the client, and we cannot reasonably contact them.
 - Processing is required by law or a prior agreement the client is party to
 - We are a public entity and processing is essential for security or judicial purposes.
 - Processing is necessary for our legitimate interests, provided it does not prejudice client rights (not for sensitive data).

4.1.2. Clients have the right to withdraw consent at any time. The process for withdrawing consent must be similar or simpler than giving consent. If data is transferred outside the Kingdom, the client's right to withdraw consent is not affected.

4.1.3. We cannot make consent a prerequisite for providing a service unless the service is directly related to the processing.

4.2. Privacy

- 4.2.1. Your personal information and details of services provided are kept confidential and used only for salon purposes.
- 4.2.2. Only your service provider, salon owners, and necessary employees with traceable logins have access to your information, such as booking history, health history.
- 4.2.3. Your private information will be securely stored in our salon database. It will not be misused or shared outside of the organization unless there are security or judicial purposes.
- 4.2.4. Your contact information is required for the salon to clearly communicate appointment details and reminders, product and marketing initiatives, and business announcements.

4.3. Customer Rights

- 4.3.1. Customers can access their personal data upon request.
- 4.3.2. Customers can request to have their data rectified, deleted, or have processing restricted.
- 4.3.3. Clear instructions are provided on how customers can make requests to access, modify, or delete their data.
- 4.3.4. Honor customer marketing opt-out requests in a timely manner.
- 4.3.5. A Privacy Officer or point of contact has been appointed to handle customer data inquiries and requests.

4.4. Data Processing

- 4.4.1. Customer data is used to schedule appointments, process payments, and maintain service records.
- 4.4.2. With consent, use customer data for marketing such as appointment reminders, new service promotions, etc.
- 4.4.3. Retain customer records for 2 years after their last visit.
- 4.4.4. Securely destroy customer data after the retention period or upon their request.

Data standards:

Data quality standards:

1. the customer must fill in all fields the booking form.
2. A confirmation message for the appointment must be sent before the appointment at least two hours.
3. The credibility of the appointment is confirmed by paying a deposit.
4. Determine a specific format for the forms used.

Data accessibility standards:

1. Only moderators can access the system.
2. Only the branch manager can access employee data.
3. Only supervisors can schedule staff work for each appointment.
4. Only the storage administrator can access the products in the storage.
5. Each service is provided in its designated place.

Data lifespan standards:

1. Dispose of customer data whose last visit was more than two years ago.
2. All data and permissions of employees whose employment contracts have been terminated are revoked.
3. Archive all data related to the suppliers after contracts terminated.
4. Data backup every six months.

Data security and privacy standards:

1. Protect sensitive data and encrypt it, such as credit card information.
2. Implementing 2FA
3. Using strong passwords for social media accounts.
4. Obtaining customer consent for capturing photos to be used for marketing purposes.

Data Glossary:

■ Services

Term Name	Definition
Makeup Services	The application and artistry of cosmetic products performed by licensed makeup artists or cosmetologists to enhance, transform, or accentuate a person's facial features and overall appearance.
Nail Services	The various cosmetic and grooming performed on the fingernails and toenails, as well as the skin around the nails. This may include manicures, pedicures, nail shaping, nail polish application, and nail art.
Skincare Services	The various treatments and procedures performed by licensed estheticians or skin care specialists to cleanse, nourish, and improve the overall health and appearance of the skin. This may include cleansing, exfoliating, and moisturizing the face, as well as applying masks and performing facial massages.
Hair Services	The various treatments, procedures, and styling techniques performed by licensed hair care professionals, to cleanse, condition, shape, color, and artistically style a person's hair.

■ Nail Services

Term Name	Definition
Manicures	The cleaning, shaping, and polishing of the fingernails, as well as the treatment of the cuticles and skin on the hands.
Pedicures:	The cleaning, shaping, and polishing of the toenails, as well as the exfoliation and moisturizing of the skin on the feet.
Nail Art	The decorative painting, embellishing, or designing of the nails with various colors, patterns, or 3D elements.
Buffer	A tool to make the surface of nails smooth and even, use a nail buffer to get a base for the best manicure possible. Some buffers also give maximum shine, but this step is best used when you're planning on not using polish over your nails.

Makeup Services

Term Name	Definition
Foundation Application	The application of liquid, cream, or powder foundations to even out skin tone and create a smooth, flawless complexion.
Concealing and Correcting	The use of specialized concealer products to cover blemishes, dark circles, and other imperfections.
Eye Makeup	Techniques like applying eyeshadows, eyeliners, mascara, and brow grooming to accentuate and define the eyes.
Lip Makeup	The application of lipsticks, lip glosses, or lip liners to shape, color, and moisturize the lips.
Blush and Contouring	The strategic application of blush, highlighters, and contour products to sculpt and enhance facial features.
Airbrush Makeup	The use of specialized airbrush equipment to create a flawless, airbrushed makeup finish.
Baking	A specific technique used to set and prolong the wear of liquid or cream-based makeup products, particularly concealer and foundation.
BB cream	A more versatile, all-in-one product that provides light coverage and skincare benefits
CC cream	color-correct and conceal specific skin imperfections and discolorations.

Skincare Services

Term Name	Definition
Microdermabrasion	A gentle, mechanical exfoliation technique that uses fine crystals or diamond-tipped wands to remove the outermost layer of dead skin cells.
Skin Analysis	Professional assessment and diagnosis of skin type, condition, and needs to recommend appropriate treatments and products.
Waxing	The removal of unwanted hair from the face and body using warm wax and strips.
Cleansing	The process of thoroughly removing dirt, oil, makeup, and other impurities from the skin using specialized cleansers, steams, and extractions. Cleansing helps to unclog pores and prepare the skin for further treatments.
Exfoliation	The removal of dead skin cells from the surface of the skin using physical or chemical methods. This can involve the use of scrubs, brushes, microdermabrasion, or chemical peels to reveal smoother, brighter skin.
Moisturizing	The application of hydrating lotions, creams, or serums to replenish the skin's natural moisture levels and prevent dryness. Proper moisturization helps to plump, soften, and protect the skin.
Facial Masks	The application of specialized clay, sheet, or cream-based masks to address specific skin concerns, such as acne, dullness, or dehydration. Masks are left on the skin for a period of time to deeply condition and nourish.
Facial Massage	The gentle manipulation and kneading of the facial muscles and skin using the fingertips or massage tools. This helps to improve circulation, relieve tension, and encourage lymphatic drainage.
Double cleanse	A two-step cleansing method that involves using two different types of cleansers to thoroughly remove makeup, oil, and impurities from the skin.
Blackheads	A type of clogged pore in the skin with a visible black plug.

Clearing	A method of hair removal in which all hair in an area is removed at once, as opposed to thinning.
Collagen	A protein that holds all connective tissue together under the skin. Collagen is sometimes damaged by plucking or electrolysis, which can lead to dimpling on the skin. Collagen, from a plant, is also used to fill in scars and augment lips, often with temporary results.

Hair Services

Term Name	Definition	
Haircuts	The cutting and shaping of hair to create a desired length, style, and look.	
Coloring	The application of permanent, semi-permanent, or temporary hair dyes to change the color of the hair.	
Highlighting	Highlighting techniques that selectively lighten certain sections of the hair.	
Hair Styling	The use of techniques like blow-drying, curling, straightening, or updos to create a specific hairstyle.	
Shampoos and Blow-Dries	Thorough cleansing and styling of the hair, often as a standalone service or in preparation for other hair treatments.	
Hair Treatments	Specialized services like protein treatments, or scalp treatments to improve the health and appearance of the hair.	
Afro Hairstyle	A rounded, thick, tightly curled hair style.	
Bleach	A method used to disguise (not remove) hair by lightening its color	
Conditioner	Creamy hair product meant to be used after shampoo. Moisturizes and detangles hair.	

Health

Term Name	Definition

Data Inventory:

Table Name	Description	Columns
Employees	Contains information about the salon's employees.	The EmployeeID is stored in the <Employees table> and in the <EmployeeServices> table and in the <Appointments> table
		FirstName & LastName is stored in the <Employees table>
		Email is stored in the <Employees table>
		PhoneNumber is stored in the <Employees table>
		HireDate is stored in the <Employees table>
		JobTitle is stored in the <Employees table>
SalonServices	To stores information about the services offered by the salon.	Salary is stored in the <Employees table>
		The ServiceID is stored in the <SalonServices table> and in the <EmployeeServices> table and in <Appointments table>
		The ServiceName is stored in the <SalonServices table>
		The ServiceDescription is stored in the <SalonServices table>
EmployeeServices	Links employees to the services they can provide.	The ServicePrice is stored in the <SalonServices table>
		EmployeeServicesID is stored in the <EmployeeServices table>
Customers	Stores customer information.	CustomerID is stored in the <Customers table> and in <Appointments table>
		FirstName & LastName is stored in the <Customers table>
		Email is stored in the <Customers table>
		PhoneNumber is stored in the <Customers table>
		SignUpDate is stored in the <Customers table>
Appointments	To tracks the appointments made by customers.	AppointmentID is stored in the < Appointments >
		AppointmentDate is stored in the < Appointments >
ProductCategories	Defines the different product categories sold by the salon. such as products for hair.	CategoryID is stored in the < ProductCategories > and in <Product table>
		CategoryName is stored in the < ProductCategories >
Products	Contains information about the	ProductID is stored in the < Products >
		ProductName is stored in the < Products >
		ProductDescription is stored in the < Products >
		ProductBrand is stored in the < Products >
		ProductPrice is stored in the < Products >

	products sold by the salon	Allergens is stored in the < Products >
MarketingCampaigns	Stores information about the salon's marketing campaigns	CampaignID is stored in the <MarketingCampaigns table> and in <CPL table>
		CampaignName is stored in the <MarketingCampaigns table>
		CampaignStartDate is stored in the <MarketingCampaigns table>
		CampaignEndDate is stored in the <MarketingCampaigns table>
		CampaignType is stored in the <MarketingCampaigns table>
		CampaignBudget is stored in the <MarketingCampaigns table>
CPL	To track the number of customers acquired through each marketing campaign.	NumCustomers is stored in the < CPL table >

Regulatory and Compliance:

To comply with Saudi data privacy laws, the salon implements the following practices:

- We are committed to explaining the legal basis and purpose for collecting personal data.
- Data cannot be processed, or the purpose changed without consent.
- Individuals have the right to access their stored personal data, as well as the right to request modification, update, or deletion of their data.
- Employees use methods and means for collecting personal data that are in line with legal requirements, appropriate for the data subject's circumstances, direct and clear, secure, and do not involve any deception, manipulation, or extortion.
- We only collect the data necessary to achieve the purpose of collection.
- When the collected personal data is no longer needed for the purpose, it was collected for, the controller must stop collecting it and destroy the previously collected personal data without undue delay.
- We use a privacy policy that is made available to data subjects before data is collected, allowing them to review it and understand all their rights.
- The data controller implements all necessary organizational, administrative, and technical measures to protect personal data.
- Except for sensitive data, personal data may be processed for marketing purposes if it was collected directly from the data subject and their consent was obtained.
- Communication channels are not used for purposes such as marketing messages without the data subject's consent.

Risk Analysis (FMEA):

- **Evaluation between (1-10).**
- **Severity(S):** refers to the impact or consequences of a failure mode if it occurs, with 1 representing a negligible impact and 10 representing a catastrophic impact.
- **Occurrence(O):** assesses the likelihood or frequency with which a failure mode is expected to occur, with 1 indicating extremely rare occurrences and 10 indicating frequent occurrences.
- **Detection(D):** considers how easily and reliably the failure mode can be detected, with 1 indicating high detectability and 10 indicating low detectability.

Process	Failure mode	Cause	Effect	Measures and control	S	O	D	RPN
Data Storage	SQL Database Corruption	Software bugs.	Affects the validity and accuracy of the data	Regularly updating database software and security patches.	8	3	7	168
		hardware failures	Increasing the financial cost	Periodic maintenance	7	4	1	28
		malicious attacks	Inability to retrieve client information, appointment schedules, inventory details, sales records, and staff information.	Add more layer protection	9	2	2	36
	Loss of Data Backups	Backup storage failure	Inability to recover from data loss events.	Automating backup processes with regular verification.	6	2	5	60
		Power outages	interrupt the backup process	Power backup source (motor)	5	3	10	150
	Human errors	Lack of Employee Awareness	Increased vulnerability to social engineering attacks	Regular employee training sessions on data security practices.	7	8	8	448
		Staff may enter incorrect dates, times, or services into the scheduling system	missed appointments and dissatisfaction.	Double check by the employee.	8	2	1	16
	Full storage	because of peak seasons	Lots of data loss in the peak season	Regularly deleting old customer's data	7	1	2	14
